JEAN CHRISTOPHE C.M. BOUGNET

PERSONAL

Born Belgian but a **citizen of the world**, i'm a 45 years old **dad of two** living in the surrounding of Liège in Belgium.

Strong from an international background, i have acquired my span of **knowledge** through various project around the world. I'm a **self learner**, always in the need of understanding things and **improve** them if need be.

I'm a real believer of a **better world** and my aim trough **UI & UX** is to **reduce the friction** for people to use **the product i work on**, before being a UX guy, i'm a customer / user as well.

My duty is to be **customer centric** and share that vision with the **management** and vice-versa.

JEAN
CHRISTOPHE

BOUGNET

AMBITION

Like said previously, i'm convinced little thing can **change the world**, the world **we live in**, the world **we surf on** (internet) & last but not least, the world **we consume**.

My deepest wish is to work with like minded people to reach a level of expertise / innovation and share it with our users first, then the rest of the world to set the trend.

I want to leave a trace where ever i go / work, i want **to design** impactfull and **game changer UI & UX**.

JEAN CHRISTOPHE C.M. BOUGNET

MUSIC

I've been involved in music since the early age of 15, first as a dj, then later as a producer, i got my first record deal in 2003 which ended as a vinyl release on UK's most notorious electronic music producer's label.

I have performed all around the world including Japan, Usa, New-Zealand, Australia, England, Germany, France, you name it.

You can find my music on the biggest platform online.

Using Beatport LINK

VIRTUAL DJ

Connecting Beatport LINK with VirtualDJ is simple. Follow the instructions below, and you'll be playing in no time.

10. HOW TO INTEGRATE BEATPORT LINK INTO VIRTUAL DJ

[beatport link](#)

Getting Started

1. Open VirtualDJ and select the **Online Music** folder, then select Beatport
2. Click **Login** on the track selection area
4. Enter your **Beatport** credentials with an active [Beatport LINK Subscription](#)
5. On successful login, you will be able to access the **Beatport Catalog**

Searching the Beatport Catalog

1. Click the **Beatport** root folder on VirtualDJ
2. Enter the track name, label or artist in the top left **Search Box**
3. Select the track from the **Beatport Catalog** search results
4. Load into one of the **Decks** and you are ready to play

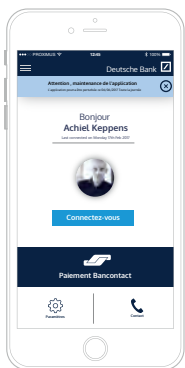

Using Beatport Offline Locker

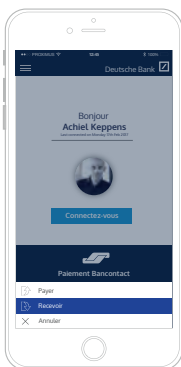

1. Find a track from the **Beatport Catalog**
